## ***Manager's Report***

***2/21/2020***

***By Bill Lawrence***

**Animal Control:** Trina worked at the Hardee County Fair Mosquito Control Booth this weekend with Kevin King of the Hardee County Health Department. Trina and Kevin were instrumental in expanding the Mosquito control program for the City of Bowling Green last summer.

I was invited to attend the **Fort Meade Community Partner's Meeting** which held Thursday at the Fort Meade Mobile Home Park. The purpose is to seek input of areas of economic development and other areas to enhance the local economy. I had a chance to participate in the discussion and met with Fort Meade City Manager, Danielle Judd and Commissioner, Samuel Berrien.

I have been doing work with Jennifer Codo-Salisbury and Don Chancey in reference to the **Duplex Development on Church and Jones Street**. We have planned a meeting at City Hall next Thursday with police, fire and our engineers, Pennoni to discuss placing a private road into the development. They are surveying the lots to determine how many duplexes they can construct. This would require a roadway. Any private road built in the city must meet FDOT standards.

**Public Works** is at it again. Amy Prine has painted the fire hydrant across from the fire station on West Main Street. Great Job Amy! The excavator and dirt pile have been removed from Pyatt Park by the Water Tower.
