Manager's Report 5/01/2020

By Bill Lawrence

Leaks at the Carrousel Tank: Roger Homann told me this week he has made progress with the exterior leaks at the new wastewater Plant. The short version is Poole & Kent has agreed to use a Xypex Concentrate Injection which Roger recommends alleviating the problem.

PUBLIC WORKS: I am working on placing a gate at the water plant for Evelyn. He is also planning on getting some wood to work on his pole barn. I will also plan on burning brush at the burn pile if he can get a burn permit. We had a few line locates that Hunter did this week. Wayne

Cayla worked on the Cemetery logbook in between City Hall calls. I have been working on a hydrant that will be placed in flower bed at City Hall. I received some free mulch from the contractors trimming trees for Preco to use on the flower bed on Jones St. I had Roy spread 1 load, received the 2nd load on Thursday and it will be spread out as weather permits. They have also agreed to give me a few loads for Banana St., which has saved the City some money. Now, I will only have to purchase some for the playground areas. I had Roy fill an alleyway with dirt behind Gloria's restaurant down to Grape street that was washed out and the manhole was sticking up too high. I also had Roy and Kyle do some tree trimming around town in small areas that were blocking signs etc. Cayla and Hunter went and replaced a few meters, today. I have them picking up small piles of limbs with the boom truck. I ordered Trina's material for the dog pound repairs on

Lowes.com. I sent Roy and Kyle to clean City Hall. Amy

FL United Methodist Conference: We received a \$5,000 check from them this week for the cemetery maintenance.

FDOT is cleaning up the ditch between the sewer plant and dog pound to improve the storm water flow off 17. FDOT SCOP submittals are completed and we should be receiving the grant reimbursement soon. FDOT is also scheduled to do drainage improvements on US 17 at Coconut St. Wayne has been working with FDOT on utility line locates.

Police News: Public Works crew reported some new graffiti painted on the west side roads to the police department. Chief Scheel and Sgt. Coronado followed the paint trail that led them to charging a 17-year-old female with criminal mischief. Great Teamwork!
