### ***Manager's Report*** **10/02/2020**

**Public Works:** I herbicided the east side of Hwy 17, a few curbs, MLK, and Centanino Park playground area. Delvin and Devin finished weed-eating the cemetery. I cleaned out our break room and put the chief's old desk in it for our future safety meetings. I cleaned out the lawn mower shed and put a new shelf together for supplies. We also had a safety meeting and demonstration of chainsaw operation. The next safety meeting will be on trenching. We are planning on more barn clean-up this week. Amy

Wayne worked on the dog pound drainage. The crew cut trees on South Ave due to school buses hitting them. I had a meeting with Diana pertaining to Diamond Maps. I measured all lift stations for Pennoni for the new sewer project. I completed 4 line locates. The crew completed placement of the vault at the spruce lift station, still needs the hinges and a lock on the lid. I worked on the pipe rack under the new pole barn addition and did more clean-up at the office. Hunter will be working on putting more meter boxes in this week. Roy and Kyle will be mowing as well as helping with clean-up. Wayne

**Nano System** is still not up. I have reached out to Roger Homann for a status update. I have also placed this on the agenda for an update on the status. There appears to be a lot of finger pointing with the supplier, contractor and operators. We will get this resolved.

**Clerk's Office:** Maricruz has resigned from her position as billing clerk to spend more time at home. Maricruz will stay on until a new person is selected and help in the training.
