Manager's Report

12/04/2020

Bill Lawrence

Main Street Park: I developed a work plan this week to get ready to start the construction phase of the Main Street Park which will consist of a parking area, exercise trail, playground, picnic area benches, landscaped with trees, shrubs, sod and walkway.

The Water Plant Nano Filtration System: Tonka, Pennoni and the operators were working on site this week. Everything is looking good for the moment and looks like we can look forward to a closeout soon.

Public Works is down 4 in the crew size due to sickness and one leaving employment. We will be placing an advertisement for part-time General Laborer this week. Amy and her crew worked with the City of Wauchula this week in the installations of the Christmas Lights. A special thanks to Andy Maddox and his crew.

Expense Report two months into the fiscal year should show 16% revenue collected and 16% expended. We are within these numbers. Great Job Staff!

Police News: There was a shooting into a vacant car parked at the Marathon Gas Station last weekend. No one was hurt but witnesses helped the Bowling Green Police Department. The department obtained an arrest warrant that was recently executed in the City of Bartow where the defendant resided. The case is also tied to a shooting in Wauchula Hills this past weekend. Great Job!
